PARALLEL SESSION / BALTIC URBAN LAB FORUM

BERGEN SCHOOL OF ARCHITECTURE

SUBJECT

A visit to the doctor

a play in three acts

Prologue

The play is situated in the city of Oslo, Norway. It is early 2014.

A violent incident with devastating consequences has occurred.

Many were wounded, many experienced loss.

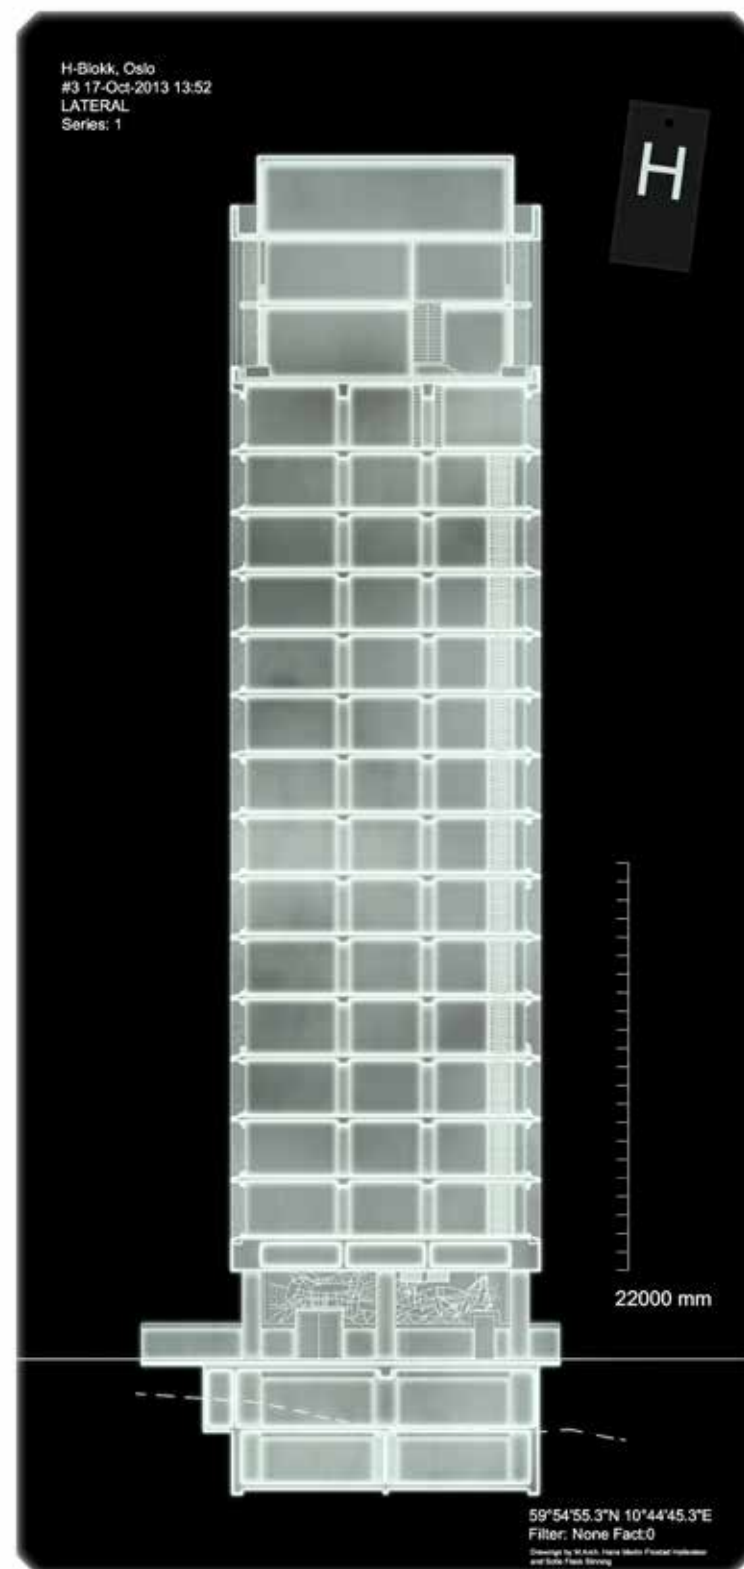

While this play is being written, the victim is still covered in plastic and its future is uncertain.

Høyblokka embeds many references, but after the terrorist attack
it has become an ambiguous symbol.

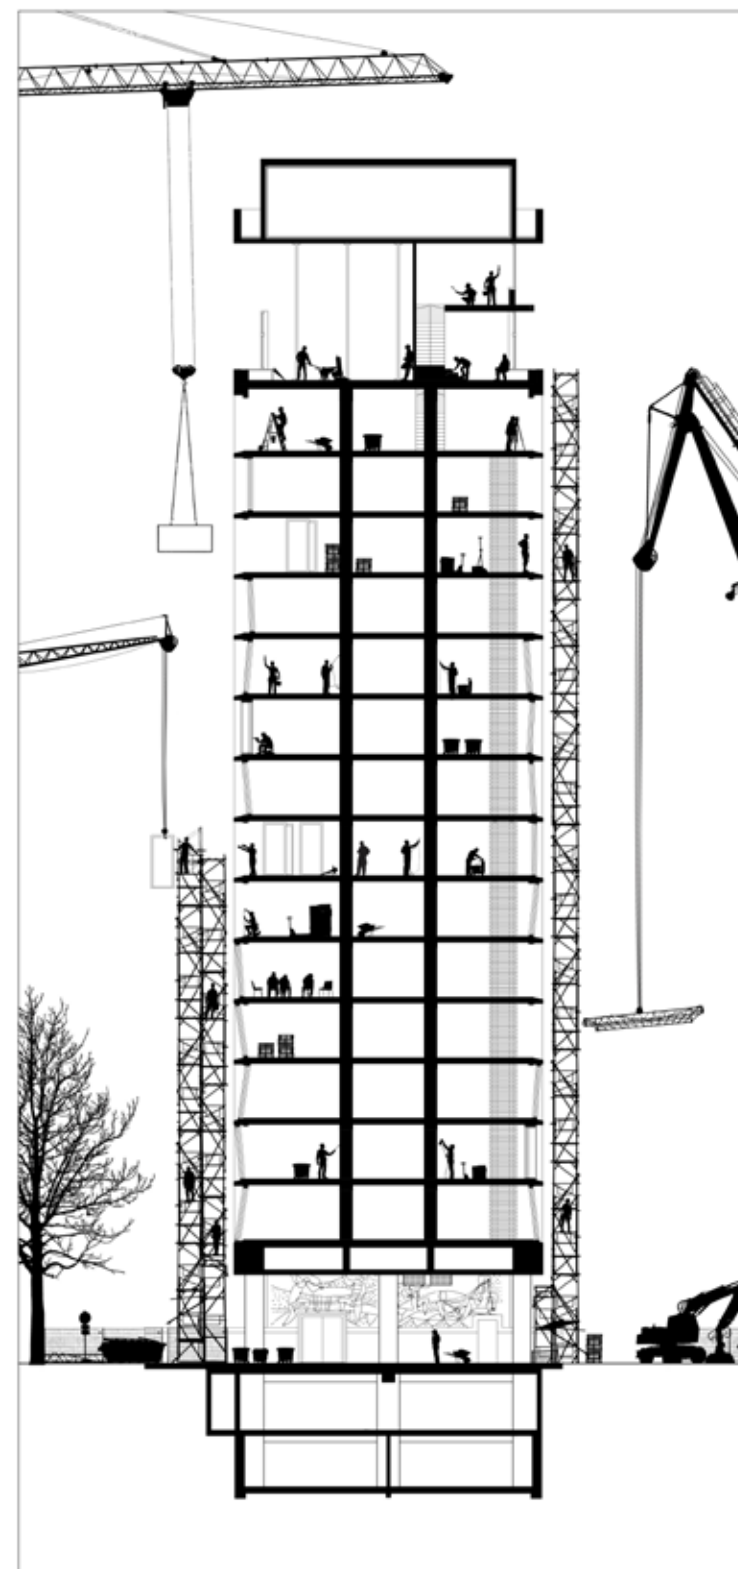

We are in the position to charge this symbol with a new meaning.

VARIED METHODS: LITERATURE

"The losses that were brought upon us are tremendous. Suddenly we saw ourselves as fragile, it was thrown right at our faces. The power of democracy was made mockery of, we became uncertain."

"Restorative measures should be considered here. Freeing the ground floor sends a message to the world of a fearless society, inviting the people to approach and use the public spaces in the quarter."

"The motions are flowing. Now the people are coming in, to gaze at me, to see the city from my top floor, and to work. I can feel the new movement in my whole body, it's so refreshing..."

”Uusi Kaupunki, formed by the architects of the new generation, has demonstrated that they pursue urban design with the **unprejudiced attitude required by our time.**

Their collective and interactive working methods respond excellently to the needs of current city planning:
**the demand of extensive dialogue and
the enforcement of the role of the inhabitants.”**

Hensikten var å la innbyggerne slippe til med ideer til hvordan området bør bli i fremtiden. Interessen for arrangementet var stor, og kommunen sier til Budstikka at de er kjempefornøyd med både oppmøtet og engasjementet.

DIKEMARK DIKEMARK SYKEHUS ASKER KOMMUNE OSLO

Truer Askers g for Dikemark

Av EIRA KJERNLIE

Oslo universitetssykehus vurderer å bygge ny sikkerhetsavdeling på Dikemark. Det kan forkaste Asker kommunes planer om å utvikle området.

Dikemark er avsatt for fremtidig tettstedsutvikling i kommuneplanen i Asker, og arbeidet med å lage et planprogram er godt i gang. Nå spøker det for hele prosjektet. Årsaken er at Oslo universitetssykehus ser for seg å bygge en helt ny sikkerhetsavdeling på jordet rett sør for Verkensvannet.

Det er ikke forenlig med våre tanker om å utvikle Dikemark, sier kommuneplansjef Tor Arne Midtbø.

marthefarmer For en fin dag! I anledning #kunstrettvest ble det arrangert Folkemøte på Dikemark, hvor lokalbefolkningen fikk være med å diskutere/formulere stedets fremtid. Allerede er det ytre ønske fra kommunen om å fylle området med kunstneratliører og kultur forøvrig, og det er helt utrolig bra at dette skal være grunnlaget. Sleng på lokal økologisk matproduksjon, bakeri, scenehus, helsehus med svangskapskontroller, fysioterapi og jordmorbaser/øddestue, Steinerskolesatellitt med småskole 1-4.trinn for de som ikke får pendlet til Nesbru, kafé, flytt Dikemark rideskole fra trange kår over til gigaløven på andre siden av broa mot Stinaløkka, ta i bruk matjorda, bygg opp drivhuset igjen, og stans forfallet av bygningsmassen. Som en sped start kan lokalprodusert mat og kultur forme et supert lørdagsmarked! Plassen for sistnevnte er allerede definert med striper på bakken...
