

BALTIC URBAN LAB

UPLIFTING NEWS: TALLINN

PLAN YOUR CITY WITH

AVALINN APP

Locals' feedback in AvaLinn co-creation app inspired Tallinn's urban planners and highlighted most critical topic of the brownfield

AvaLinn is a NEW idea gathering platform

It is a **platform for the municipality** not only for the urban planners. AvaLinn app also helps to **inform citizens** about **new public space developments** and urban projects. It aims at encouraging people to participate in planning and be active in urban space/life.

The Core Values of this Method:

- **Free** – download for android and iOS devices
- **Easy** – leave your location based ideas for city planners
- **Playful** – like or dislike city planners' urban space proposals
- **2 apps in three languages**

>> **Continues on**

THE WOW FACTOR!

Tons of constructive ideas and from locals in the brownfield neighbourhood. Traffic solution as the “hot” topic was further discussed in **workshop** with the interested stakeholders
